ENSURING A BRIGHTER FUTURE

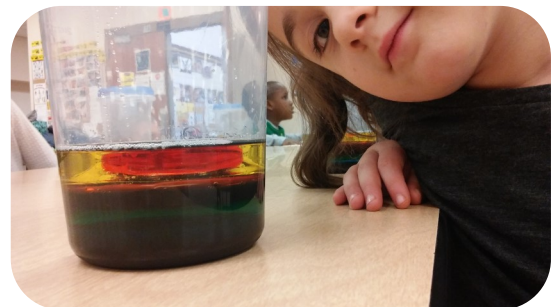

STEM BASED LEARNING AT Y-CARE Now Registering!

Y-Care participants receive STEM based learning through projects and lessons that focus on educational development in the areas of science, technology, engineering and math. This experiment shows kids how to create a rainbow and learn about liquid density. Projects are tailored to individual grade levels, so that each child learns curriculum that aligns with their learning level. They also receive help with homework, tutoring on tough subjects and can also explore arts, music, literacy and more.

Monday-Friday
6:00am until school starts &
after school until 6:00pm

“MAKING RAINBOWS”
