

Setup your DAXKO account today, and you'll be able to register online for Y programs whenever you have time! (Like when the kids are asleep!)

3 Ways to get started:

1. Login:
Current, past members or program participants who have an active online account.
2. Current or previous Duneland YMCA members and program participants:
If you are currently or have ever been a Duneland Family YMCA member or program participant, you'll just be activating an online DAXKO account with the contact info already registered with the Duneland Family YMCA. You'll click the "set up online access to my account" link on the DAXKO page, and follow instructions from there.
3. First-time YMCA program participants:
If you've never been a Duneland Y member or program participant, you'll click "I don't have an account but want to create one" on the DAXKO page.

Attention parents and families:

When you create a DAXKO account, make sure you enter any parents or legal guardians in the household, as well as any children or others who will be registering for any programs in the future. This will allow you to register for programs efficiently and not require you to keep track of multiple logins for different family members.

Notes:

1. Insure you are using the actual program participants name when registering for programs. If your DAXKO account is under the name Jane Smith, and you are the parent or guardian of Johnny Smith (age 9), and you want to register Johnny for swim lessons, you'll need to use his name when registering for those lessons.
2. Only programs that are open for online registration will show up in Daxko. To view future or past programs please browse our website for more information.
