

Letter from the Campaign Chairs

Dear YMCA Friends,

2020 will always be remembered as a year that presented all of us with a variety of challenges. Your Duneland Family YMCA was not immune to these difficult times, but persevered and continued to offer high quality programs and services to all people in need. From providing emergency childcare for essential workers, distributing more than 8,000 handsewn face masks to the most vulnerable populations, and making weekly wellness checks on our senior members, the Duneland Y continued to respond to our community's greatest needs. Your help is needed **Now, More Than Ever.**

The Duneland Family YMCA Annual Support Campaign is the cornerstone of our charitable mission and your participation will make certain that no one is ever turned away due to their inability to pay. Your gift to the Duneland Family YMCA means that somewhere in our community, opportunities are made for children, families or seniors who would otherwise be unable to participate in YMCA programs or services. Your gift is truly an investment in the quality of life for others – our neighbors, family, and friends.

We are honored to serve as the Co-Chairs for the 2021 Annual Support Campaign. Personally, the YMCA has played a critical role in the lives of our girls. The Forchetti Family YMCA Center for Early Learning has given our daughter a great start in early education, provides a fun and safe environment for where she has learned and gained essential skills. When you are contacted by one of our volunteer solicitors, please take time to hear the Y story and consider a meaningful gift. To meet the documented needs in our community, we have set the 2021 Annual Support Campaign goal at \$100,000. Please join us to ensure that YMCA programs and services always remain available to all. Your help is needed **Now, More Than Ever.**

Sincerely,

Nicole and Jim Anton
