## **Duneland YMCA Members and Program Participants**

At the Duneland Family YMCA, the safety and well-being of our members, staff and program participants have always been and will always be our top priority. We have worked hard to ensure safety and I would like to thank you for helping us create a healthy and welcoming environment for all. Beginning Monday, June 7, we will update our mask policies for fully vaccinated members and program participants using our facility located 215 Roosevelt based on CDC guidance.

Beginning June 7:

### Duneland Family YMCA (215 Roosevelt St.)

- For fully vaccinated people, masks are optional.
- We are recommending masks to be worn by those who are non-vaccinated (or those who have a pre-existing condition or feel more comfortable continuing to wear a mask) in the YMCA as follows: entering building, transitioning in building, lobby, hallways, and common areas.
- Vaccination verification is not required.
- People who are not vaccinated are asked to follow CDC guidelines and wear a mask in the facility as listed above.
- Nationwide Membership reciprocity will continue to be honored.

### Forchetti Family YMCA Center for Early Learning (270 E Burdick Rd.)

- When inside the facility, face coverings are required for all personnel, guests, and parents as regulated by the State when indoors.
- Children over the age of 2 are not required to wear face coverings but are encouraged to do so.
- When outdoors, face coverings are required for personnel who cannot maintain 6 feet of physical distance.

### Duneland Family YMCA Summer Camp Safety Procedures

- Campers and staff will be asked to wear a mask indoors when indoors. Campers will not be required to wear masks outdoors in most circumstances including eating and swimming, with the exception of times where physical distancing will be difficult.

The YMCA Staff Will Continue to:

- Be diligent with cleaning and continue to identify areas that need additional disinfecting.
- Monitor building flow/usage to ensure a safe environment.
- Provide extra cleaning supplies and sanitizer will be made available throughout the facility.
- While in common spaces, continue to wear masks.
- Stay home when sick.
- Wash hands frequently with soap for at least twenty seconds.
- Practice physical distancing.
- Provide you with the safest environment possible.
- Continue to monitor and make necessary changes as needed.

If you have any questions, please feel free to see me at your earliest convenience. Thank you for your patience, keeping each other safe and for sticking with us!

With Peace and Grace,

**Dave Kasarda**  
*Chief Executive Officer*
